

## ctools - Feature #1037

### Implement ctools to combine run-wise IRFs for fast binned likelihood analysis

12/11/2013 10:09 AM - Deil Christoph

<b>Status:</b>	Closed	<b>Start date:</b>	12/11/2013

<b>Target version:</b>	00-08-00		
<b>Description</b>			
<p>In HAP we usually combine all runs into total counts and exposure and exposure-averaged PSF before fitting the morphology and spectrum.</p> <p>This loses some information, but means a factor 100 speed-up for a binned likelihood fit for 100 runs. Plus there might be problems with having too many free background parameters when fitting per-run data with per-run IRFs.</p> <p>So we should develop ctools to combine IRFs (and maybe counts). As a start it could be a two-page Python script ... it's basically summing up.</p> <p>In optical and X-ray astronomy this is known as co-adding, and there are e.g. tools to co-add PHA, ARF and RMF files in CIAO: Example and explanation of tool: <a href="http://cxc.harvard.edu/ciao/threads/coadding/">http://cxc.harvard.edu/ciao/threads/coadding/</a> Formulae: <a href="http://cxc.harvard.edu/ciao/download/doc/combine.pdf">http://cxc.harvard.edu/ciao/download/doc/combine.pdf</a></p>			

#### History

##### #1 - 12/11/2013 10:33 AM - Deil Christoph

- Subject changed from *Implement ctools to combine run-wise event lists and IRFs* to *Implement ctools to combine run-wise IRFs for fast binned likelihood analysis*
- Description updated

##### #2 - 12/11/2013 08:21 PM - Knödlseider Jürgen

- Target version set to *2nd coding sprint*

##### #3 - 12/13/2013 07:46 AM - Deil Christoph

- Description updated

##### #4 - 12/13/2013 08:01 AM - Deil Christoph

- Description updated

##### #5 - 01/29/2014 01:50 AM - Knödlseider Jürgen

- Status changed from *New* to *In Progress*

##### #6 - 07/08/2014 04:35 PM - Lu Chia-Chun

- Status changed from *In Progress* to *Resolved*

Replaced by #1249 #1250

##### #7 - 07/19/2014 02:15 AM - Knödlseider Jürgen

- Target version changed from *2nd coding sprint* to *00-08-00*

##### #8 - 07/20/2014 11:18 PM - Knödlseider Jürgen

- Status changed from *Resolved* to *Closed*
- % Done changed from *0* to *100*
