#### History

##### #1 - 01/09/2014 04:59 PM - Knödseder Jürgen

- % Done changed from 0 to 90

I'm about to integrate the code.

Just one thing: when you change class names you should also check the source code for formatting. The code was pretty misaligned due to the additional characters in the class name, so I had to go over all files to put back the correct format.
