GammaLib - Feature #118

Check for Python wrappers in configure.ac script

03/09/2012 03:08 PM - Knödlseder Jürgen

Status:	Closed	**Start date:**	03/09/2012
Priority:	Urgent	**Due date:**

Category:		**Estimated time:**	8.00 hours
Target version:	00-06-00		

Description

After creating the gammalib Python modules I removed the Python wrapper check from configure.ac. Now, GammaLib tries to build Python support even if no wrappers are present. This leads to unwanted errors during compilation and unit testing.

The configure.ac script should test if all Python wrappers are present, and if not, no Python support should be compiled in.

Subtasks:

Action # 393: Test for presence of Python wrappers in configure.ac script.   **Closed**
