

ctools - Bug #1265

Fix examples to use proper location of xml models and calibration

07/10/2014 04:35 PM - Siejkowski Hubert

Status:	Closed	Start date:	07/10/2014
Priority:	Normal	Due date:	
Assigned To:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	00-08-00		
Description E.g. in example of binned analysis there is: model_name = "\${GAMMALIB}/share/models/crab.xml" while it should be model_name = "\${CTOOLS}/share/models/crab.xml" Similiar with caldb, which is now located at \$CALDB			

History

- Status changed from New to Feedback
- Target version set to 00-08-00
- % Done changed from 0 to 100

I went through all scripts in the example folder and made sure that GAMMALIB does not appear there. Put it on feedback and will close for next release unless I hear from you.

#2 - 10/31/2014 10:35 AM - Siejkowski Hubert

I tested the clean installation and it works out-of-the box, so the paths are now OK.

#3 - 10/31/2014 02:01 PM - Knödseder Jürgen

- Status changed from Feedback to Closed

Great, thanks for testing. Close this now.
