

## ctools - Change request #1350

### Separate parameter reading from file loading

10/30/2014 02:38 PM - Knödseder Jürgen

<b>Status:</b>	Rejected	<b>Start date:</b>	10/30/2014
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assigned To:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.0.0		
<b>Description</b>			
All ctools should only read task parameters in get_parameters(), and loading of files should only be done later in the run() method. Most of the tools do respect this rule, but not all of them (see #564). We should make sure that all ctools follow that rule.

### History

#### #1 - 02/26/2015 08:38 AM - Knödseder Jürgen

I'm not fully sure that this always can be accommodated as sometimes the request of parameters depend on information found (or not found) in a file. The actual logic with the ctool base class even prevents this. I think that the actual response times of the ctools is reasonably fast, hence I propose to reject that issue.

#### #2 - 06/30/2015 11:50 AM - Knödseder Jürgen

- Status changed from New to Rejected

Decided to not do anything about that.
