

GammaLib - Change request #1355

Try doing the elliptical CTA response computation in a Psf-based system

10/31/2014 01:45 PM - Knödseder Jürgen

Status: New	Start date: 10/31/2014
Priority: Low	Due date:
Assigned To:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description Using a Psf-based system should lead to a better behavior in the fit convergence. But it's not clear how to properly figure out the integration boundaries for this case. So at least we should try to do this.
