GammaLib - Bug #1385

Unable to find shared cfitsio library if directory is not in LD_LIBRARY_PATH

12/11/2014 08:43 PM - Knödlseder Jürgen

Target version:			

Description

On some system, the /usr/local/lib directory is not part of the LD_LIBRARY_PATH environment variable (for example CentOS 7). Upon configuration, GammaLib correctly finds cfitsio, but when running the tests the library is not found.
