

ctools - Bug #1497

tsmerge.py does not properly read a file list from file

07/01/2015 12:34 PM - Mayer Michael

Status:	Closed	Start date:	07/01/2015
Priority:	Normal	Due date:	
Assigned To:	Mayer Michael	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.0.0		
Description			
I used the following code to extract filenames from an ascii file:			
<pre>f = open(filename) files = f.readlines()</pre>			
That, however, results in having the string "\n" at the end of each file which prevents tsmerge.py from finding the file. The code should be replaced by			
<pre>f = open(filename) files = f.read().splitlines()</pre>			

History

#1 - 07/01/2015 12:36 PM - Mayer Michael

- Status changed from New to Pull request

Available on branch 1497-fix-tsmerge-when-reading-ascii-file

#2 - 07/02/2015 06:16 PM - Knödlseeder Jürgen

- Status changed from Pull request to Closed
