

ctools - Change request #1603

Adapt ctools code to recent gammalib GFilename implementation

12/14/2015 11:53 AM - Mayer Michael

Status:	Closed	Start date:	12/14/2015
Priority:	Normal	Due date:	
Assigned To:	Mayer Michael	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
I realised that on the latest devel version of gammalib, the ctools unit tests are failing. The reason is in ctool::create_ebounds. The function GEbounds::load(std::string filename, std::string extname) was replaced by GEbounds::load(std::string filename).			

History

#1 - 12/14/2015 11:56 AM - Mayer Michael

- Status changed from New to Pull request
- Assigned To set to Mayer Michael
- % Done changed from 0 to 100

I have updated the code to match the latest gammalib developments. I had to slightly update ctool::create_ebounds() and csobs2caldb to run in latest scheme. The code is available on [1603-use-latest-GFilename-developments](#)

#2 - 12/14/2015 01:08 PM - Mayer Michael

- Description updated

#3 - 12/16/2015 09:47 PM - Knödseder Jürgen

- Status changed from Pull request to Closed

Thanks for the changes. Merged into devel.
