Description

When building the SWIG interface, the following warnings appear:

GFitsTableCol.i:238: Warning 467: Overloaded method GFitsTableCol::__setitem__(int [],double) not supported (no type checking rule for 'int []').
GFitsTableCol.i:215: Warning 467: Overloaded method GFitsTableCol::__setitem__(int [],int) not supported (no type checking rule for 'int []').
GFitsTableStringCol.i:113: Warning 467: Overloaded method GFitsTableStringCol::__setitem__(int [],std::string) not supported (no type checking rule for 'int []').

The code should be modified so that these warning disappear.
