| <b>Description</b><br>Dear the system admin<br><br>Hi, my name is Tan. I have a question.<br>How can I output TS value of ctllike by python code? I've found on ctools homepage but there's no clear answer.<br><br>Thank you for reading me.<br>Tan |                    |                        |           |

History

#1 - 02/24/2016 09:34 AM - Knödlseeder Jürgen

- Tracker changed from Feature to Support
- Subject changed from how to output TS value of ctllike to How to output TS value of ctllike
- Status changed from New to Feedback
- Assigned To set to Knödlseeder Jürgen
- % Done changed from 0 to 100

Use the GModel::ts() method, e.g.

```
ctllike = ctools.ctllike()
...
ctllike.run()
models = ctllike.obs().models()
for model in models:
    if model.has_ts():
        print("Model %s has TS %.3f" % (model.name(), model.ts()))
```
