ctools - Bug #1752

TypeError while running csiactobs.py

03/31/2016 12:15 PM - Servillat Mathieu

Status:	Closed		**Start date:**	03/31/2016
Priority:	Normal		**Due date:**	
Assigned To:	Servillat Mathieu		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	1.1.0			

Description
Running the latest version of the script, I get this error: TypeError: GModels_save() takes exactly 2 arguments (3 given)

History

#1 - 03/31/2016 12:38 PM - Servillat Mathieu

Pull request proposed:
https://cta-gitlab.irap.omp.eu/mservillat/ctools.git
branch: 1752-csiactobs-typeerror

I simply removed self._clobber() attribute to the self._models.save() function at line 621 of csiactobs.py. It works, though I wonder if the addition of clobber was in fact intentional, implying further modifications to the GammaLib GModels.save() function maybe.

#2 - 04/01/2016 09:52 PM - Knödlseder Jürgen

- *Status changed from New to Closed*

- *Target version set to 1.1.0*

- *% Done changed from 0 to 100*

Thanks for catching that. I had in fact already corrected the bug, but the code was not yet in devel. This is fixed now.
