<b>Target version:</b>	1.1.0		
<b>Description</b> The purpose of the ctmappcube tool is to generate a map cube (3D map spanned by Right Ascension, Declination and log energy) from a model definition XML file. This tool will allow, for example, to put all model components that are fixed into a single map cube and to fit these model components globally to the data.			

History

#1 - 04/16/2016 12:54 AM - Knödlseeder Jürgen

- Status changed from New to Closed
- Assigned To set to Knödlseeder Jürgen
- Target version set to 1.1.0
- Start date set to 04/16/2016
- % Done changed from 0 to 100

Added tool. I tested using a stacked analysis that the tool is producing reliable map cubes.

Merged into devel.
