

GammaLib - Action #1763

Add swig version requirement to user documentation

04/14/2016 09:44 PM - Knödseder Jürgen

Status: New	Start date: 04/14/2016
Priority: Normal	Due date:
Assigned To:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description If Python 3 is used the system needs at least swig 2.0.4. Information about the minimum swig version should be added to the User documentation. Note that this only applies to users who get the source code from git, as for the releases the Python wrappers are shipped already with the software.
