| The csobsselect script should allow selecting observations from an observation definition XML file based on various criteria (primary pointing, but eventually also other criteria). |                    |                        |            |

History

#1 - 11/23/2016 12:14 PM - Knödlseider Jürgen

- Status changed from New to Closed
- % Done changed from 0 to 100

Created an initial version that allows circular and box selections. Merged into devel.
