

GammaLib - Bug #267

FreeBSD requires gmake for compilation

07/03/2012 01:39 AM - Knödseder Jürgen

Status:	New	Start date:	07/03/2012

Target version:			
Description			
On FreeBSD, GammaLib requires gmake instead make for compilation of the Python wrappers. It's the syntax			
<pre>%_wrap.cpp %.py: %.i \$(SWIG) -c++ -python -Wall -o \$@ -outdir gammalib \$<</pre>			
that is not understood by FreeBSD make.
