

ctools - Feature #3048

Extend documentation section "ctools-from-python" with info about log file creation

10/14/2019 04:47 PM - Specovius Andreas

Status:	Closed	Start date:	10/14/2019
Priority:	Low	Due date:	
Assigned To:	Knödseder Jürgen	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.7.0		
Description			
<p>It would be nice to have some explanatory text on how the user could enable the production of a log file when running ctools/cscripts from python.</p> <p>At least I did not find any comment on that on the online documentation, which made me to dig deep in the code to find out how to do so wink.png</p> <p>In the end it is just a small call of the following method before running the tool:</p> <pre>ctool::logFileOpen()</pre> <p>It would be nice to have that piece of information on the online documentation, maybe on tutorial section "ctools-from-python"?</p>			

History

#1 - 10/31/2019 03:29 PM - Knödseder Jürgen

- Status changed from New to Closed
- Assigned To set to Knödseder Jürgen
- Target version set to 1.7.0
- % Done changed from 0 to 100

Thanks for bringing this up.

I added the relevant information to the Jupyter notebook, but also the Introduction section of the User Manual and the FAQ.

Merged into devel.
