

GammaLib - Change request #3258

Change GModelSpatial::region() method to GModelSpatial::regions() that returns a GRegions object

06/30/2020 04:14 PM - Knödlseider Jürgen

Status:	New	Start date:	06/30/2020
Priority:	Normal	Due date:	
Assigned To:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description See #3145 for more information. The bottom line is that only a GRegions object is sufficiently general to handle all possible cases.
