

GammaLib - Change request #3258

Change GModelSpatial::region() method to GModelSpatial::regions() that returns a GRegions object

06/30/2020 04:14 PM - Knödseder Jürgen

Status: New	Start date: 06/30/2020
Priority: Normal	Due date:
Assigned To:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description See #3145 for more information. The bottom line is that only a GRegions object is sufficiently general to handle all possible cases.
