

ctools - Action #357

Feature # 351 (Closed): ctobssim: Support writing of observation definition files

Write XML descriptor and series of event files for observation list.

07/20/2012 11:13 PM - Knödlseider Jürgen

Status:	Closed	Start date:	07/21/2012
Priority:	Normal	Due date:	
Assigned To:	Knödlseider Jürgen	% Done:	100%
Category:		Estimated time:	8.00 hours
Target version:	00-05-00		
Description In case that ctobssim operates on a list of observations, the output of the tool should be an observation descriptor XML file plus a series of event lists as FITS files. The code can be inspired from ctselect which produces already the output that is also expected for ctobssim.			

History
