

GammaLib-00-06-02 release

This is a bug fix release. The following bug fixes are included:

- clang++ compiler precedence is only taken for Mac OS X \geq 10.7
- Omit Python checks if Python bindings are disabled
- Enhance OpenMP configuration on Darwin
- Export MACOSX_DEPLOYMENT_TARGET only for --enable-universalsdk
- Improve Python bindings configuration
- Add TEST_ENV_DIR to load library path
