

Version 1.0.1

GammaLib version 1.0.1 has been released.

This is a bug fix for GammaLib release 1.0.

The following bug fixes have been implemented:

- Add units to CTA event list columns (#1616)
- Allow usage of numbers in FITS extension names (#1611)
- Solve compatibility issues with Anaconda on Mac OS X (#1607)
- Correct diffuse map MC normalisation (#1584)
